

DigitalBridge-Backed Portfolio Company Vantage Data Centers Launches \$25 Billion Texas “Frontier” Mega-Campus

August 19, 2025

Investment underscores DigitalBridge’s commitment to scaling digital infrastructure to meet accelerating AI demand

BOCA RATON, Fla.--(BUSINESS WIRE)--Aug. 19, 2025-- DigitalBridge Group, Inc. (NYSE: DBRG), a leading global alternative asset manager dedicated to investing in digital infrastructure, today announced its portfolio company Vantage Data Centers’ largest project to date: Frontier, a \$25 billion, 1.4GW hyperscale data center campus in Shackelford County, Texas. The Frontier campus will serve as a cornerstone in the rapidly growing Texas AI hub, supporting global hyperscale customers and bringing significant economic benefits to the region.

“Frontier represents an important milestone for Vantage Data Centers and for the broader digital infrastructure ecosystem,” said Jon Mauck, Senior Managing Director and Head of Data Centers at DigitalBridge. “As investors, we are proud to support Vantage in expanding its platform with a project of this scale, which not only enables the growth of AI but also creates meaningful local impact through jobs and community investment.”

The Shackelford County development will include 10 data centers totaling 3.7 million square feet, designed to support ultra-high-density GPU workloads with advanced liquid cooling systems. In line with Vantage’s sustainable by design approach, the project will incorporate resource-efficient technologies and pursue LEED certification.

Marc Ganzi, CEO of DigitalBridge, added:

“At DigitalBridge, we see power and scale as the defining challenges of the AI era. Vantage’s Frontier campus is a direct response to those needs and reflects the playbook we’ve built over the last three decades of investing in data centers and digital infrastructure: backing market leaders, enabling them to scale, and delivering long-term value for customers and communities.”

DigitalBridge’s continued investment in Vantage reflects the firm’s broader strategy of building and scaling global platforms across hyperscale, AI, private cloud, edge data centers, fiber, towers, and digital power.

About DigitalBridge
